

New Journals from the Resource Centre for May 2011

The Resource Centre is open to the public Monday to Friday 9 am to 5 pm.

Books, videos and DVDs are available for loan.

Reference materials and journals are not available for loan, but can be photocopied free of charge.

For a complete listing of items in our collection, as well as an extensive list of online materials in over 65 languages, please consult our online Resource Centre Catalogue at http://www.alzheimertoronto.org/lib_onlineCatalogue.htm.

NEW JOURNAL ISSUES AVAILABLE

The following journal issues have been published.

Please indicate which articles you would like to view and I will email/fax them to you as appropriate.

Please provide Journal title, issue number, pages & title for each article required.

## Alzheimer's Disease & Associated Disorders

Vol. 25 no 2. April to June 2011

Abstracts available online at <http://journals.lww.com/alzheimerjournal/pages/currenttoc.aspx>

|             |                                                                                                                                                                               |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 101-<br>108 | The Measurement of Psychosis in Dementia: A Comparison of Assessment Tools                                                                                                    |
| 109-<br>115 | Undiagnosed Illness and Neuropsychiatric Behaviors in Community Residing Older Adults With Dementia                                                                           |
| 116-<br>121 | Caregiver Burden and Neuropsychiatric Symptoms in Older Adults With Cognitive Impairment: The Aging, Demographics, and Memory Study (ADAMS)                                   |
| 122-<br>127 | Adding Delayed Recall to the Alzheimer Disease Assessment Scale is Useful in Studies of Mild Cognitive Impairment But Not Alzheimer Disease                                   |
| 128-<br>137 | Factor Structure of the National Alzheimer's Coordinating Centers Uniform Dataset Neuropsychological Battery: An Evaluation of Invariance Between and Within Groups Over Time |
| 138-<br>143 | Relationship Between Thyroid Hormone Levels and Regional Cerebral Blood Flow in Alzheimer Disease                                                                             |
| 144-<br>148 | Utilization of Antihypertensives, Antidepressants, Antipsychotics, and Hormones in Alzheimer Disease                                                                          |
| 149-<br>154 | Dietary Inflammation Factor Rating System and Risk of Alzheimer Disease in Elders                                                                                             |
| 155-<br>158 | Attentional Distractibility Induced by Optokinetic Stimulation in Mild Cognitive Impairment                                                                                   |
| 159-<br>163 | ApoE E4 is a Susceptibility Factor in Amnesic But Not Aphasic Dementias                                                                                                       |
| 164-<br>172 | Nonfibrillar A $\beta$ 1–42 Inhibits Glutamate Uptake and Phosphorylates p38 in Human Fibroblasts                                                                             |
| 173-<br>178 | Novel Progranulin Mutation Detected in 2 Patients With FTL D                                                                                                                  |
| 179-<br>183 | Assessment of Nondeclarative Learning in Severe Alzheimer Dementia: The Implicit Memory Test (IMT)                                                                            |
| 184-<br>186 | Management of Behavioral and Psychological Symptoms of Dementia in a Dedicated Psychogeriatric Unit: A Pilot Experience                                                       |

# Alzheimer's & Dementia: The Journal of the Alzheimer's Association

Vol. 7 no 3. May 2011

Abstracts and some full text articles available online at

|         |                                                                                                                                                                                                                                                                  |
|---------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 253-256 | Revised criteria for diagnosis of Alzheimer's disease: National Institute on Aging-Alzheimer's Association diagnostic guidelines for Alzheimer's disease<br><b>* Full text available online for FREE</b>                                                         |
| 257-262 | Introduction to the recommendations from the National Institute on Aging-Alzheimer's Association workgroups on diagnostic guidelines for Alzheimer's disease<br><b>* Full text available online for FREE</b>                                                     |
| 263-269 | The diagnosis of dementia due to Alzheimer's disease: Recommendations from the National Institute on Aging-Alzheimer's Association workgroups on diagnostic guidelines for Alzheimer's disease<br><b>* Full text available online for FREE</b>                   |
| 270-279 | The diagnosis of mild cognitive impairment due to Alzheimer's disease: Recommendations from the National Institute on Aging-Alzheimer's Association workgroups on diagnostic guidelines for Alzheimer's disease,<br><b>* Full text available online for FREE</b> |
| 280-292 | Toward defining the preclinical stages of Alzheimer's disease: Recommendations from the National Institute on Aging-Alzheimer's Association workgroups on diagnostic guidelines for Alzheimer's disease<br><b>* Full text available online for FREE</b>          |
| 293-299 | Language and behavior domains enhance the value of the clinical dementia rating scale                                                                                                                                                                            |
| 300-308 | Executive function and instrumental activities of daily living in mild cognitive impairment and Alzheimer's disease                                                                                                                                              |
| 309-317 | Metabolomic changes in autopsy-confirmed Alzheimer's disease,                                                                                                                                                                                                    |
| 318-327 | Predictors of costs of care in Alzheimer's disease: A multinational sample of 1222 patients                                                                                                                                                                      |
| 328-329 | Commentary on "Recommendations from the National Institute on Aging-Alzheimer's Association workgroups on diagnostic guidelines for Alzheimer's disease." New criteria for a new era.                                                                            |
| 330-332 | Commentary on "Recommendations from the National Institute on Aging-Alzheimer's Association workgroups on diagnostic guidelines for Alzheimer's disease." A Canadian perspective.                                                                                |
| 335-337 | Commentary on "Recommendations from the National Institute on Aging-Alzheimer's Association workgroups on diagnostic guidelines for Alzheimer's disease." Addressing the challenge of Alzheimer's disease in the 21st century.                                   |
| 338-355 | Assessment of cognition in mild cognitive impairment: A comparative study                                                                                                                                                                                        |
| 356-360 | Risk of Alzheimer's disease incidence attributable to vascular disease in the population                                                                                                                                                                         |
| e13-e44 | Biomarkers in Alzheimer's disease drug development,                                                                                                                                                                                                              |
| e45-e47 | Commentary on "Biomarkers in Alzheimer's disease drug development." The view from Alzheimer's Disease Neuroimaging Initiative                                                                                                                                    |
| e48-e50 | Commentary on "Biomarkers in Alzheimer's disease drug development." Can't live without 'em                                                                                                                                                                       |
| e51-e59 | Alzheimer's Disease Management Guideline: Update 2008,                                                                                                                                                                                                           |

# American Journal of Alzheimer's Disease & Other Dementias

Vol. 26 no 3. May 2011

Abstracts available online at <http://aja.sagepub.com/content/current>

|         |                                                                                                                                                     |
|---------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| 167-168 | Review of Issue: Institutionalizing Patients With Dementia                                                                                          |
| 169-183 | Efficacy and Tolerability of Antidepressants in the Treatment of Behavioral and Psychological Symptoms of Dementia, A Literature Review of Evidence |
| 184-194 | Guiding Research and Practice: A Conceptual Model for Aerobic Exercise Training in Alzheimer's Disease                                              |
| 195-204 | Use of Services by Community-Dwelling Patients With Dementia: A Systematic Review                                                                   |
| 205-211 | Determinants of the Desire to Institutionalize in Alzheimer's Caregivers                                                                            |
| 212-217 | Difficult Diagnoses: Family Caregivers' Experiences During and Following the Diagnostic Process for Dementia                                        |
| 218-226 | The Memory Club: Providing Support to Persons with Early-Stage Dementia and Their Care Partners                                                     |
| 227-234 | Exploring the Reasons Urban and Rural-Dwelling Older Adults Participate in Memory Research                                                          |
| 235-239 | Comparison of the Memory Performance Index With Standard Neuropsychological Measures of Cognition                                                   |
| 240-246 | Beneficial Care Approaches in Specialized Daycare Units for Persons With Dementia                                                                   |
| 247-253 | Identity Matching in a Patient With Alzheimer's Disease                                                                                             |

# Dementia: international journal of social research and practice

Vol. 10 no 2. May 2011

Abstracts available online at <http://dem.sagepub.com/content/10/2.toc>

|         |                                                                                                                                                                                                                                                                                           |
|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 145-147 | Journey into Alzheimerland                                                                                                                                                                                                                                                                |
| 149-163 | Alcohol, ageing and dementia: A Scottish perspective                                                                                                                                                                                                                                      |
| 165-184 | The organisation of dementia care by families in Malta: The experiences of family caregivers                                                                                                                                                                                              |
| 185-201 | Existential loss as a determinant to well-being in the dementia caregiving dyad: A conceptual model                                                                                                                                                                                       |
| 203-216 | Using Photovoice with people with early-stage Alzheimer's disease: A discussion of methodology                                                                                                                                                                                            |
| 217-234 | Preserving the "us identity" through marriage commitment while living with early-stage dementia                                                                                                                                                                                           |
| 235-247 | The needs of people with learning disabilities who develop dementia: A literature review                                                                                                                                                                                                  |
| 249-256 | An autoethnography on shifting relationships between a daughter, her mother and Alzheimer's dementia (in any order)                                                                                                                                                                       |
| 257-269 | Psychological trauma and fear for personal safety as a result of behaviours that challenge in dementia: The experiences of healthcare workers                                                                                                                                             |
